

What is claimed is:

1. A clip type light emitter, comprising:

a casing forming a body;

5 a plurality of lamps provided at a front side of the casing at regular intervals;

a switch means provided in one side of the casing;

a battery provided in the interior of the casing; and

a clip provided in an upper side of the casing and having one side end integrally engaged with the casing and having a certain elastic force,

10 wherein said clip type light emitter is detachably engaged to a leisure cap (including hat) used for a mounting climbing, fishing or various outdoor leisure and sports.
